Grupo Ferrovial, S.A. — Information Furnished Pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934

Securities and Exchange Commission Division of Corporation Finance Office of International Corporate Finance 450 Fifth Street, N.W. Washington, D.C. 20549

Ladies and Gentlemen:

On behalf of Grupo Ferrovial, S.A. (the "Company") and in connection with the Company's exemption from Section 12(g) of the Securities and Exchange Act of 1934 granted under Rule 12g3-2(b) thereunder, we hereby furnish to the Securities and Exchange Commission (the "Commission") the following:

- English translation of the official form concerning the 1st quarterly results of the company together with an explanatory presentation of them,
- Presentation on the Impact of International Financial Reporting Standards.

all of which were furnished to the Comisión Nacional del Mercado de Valores (CNMV).

If you have any questions, please do not hesitate to contact me at 212- 450-6808. Please stamp the enclosed copy of this letter and return it to our messenger, who has been instructed to wait.

Best regards,

Paul Bozzello Legal Clerk

B) BUSINESS PERFORMANCE				
(Although the comments for inclusion in this section are summarised due to the synthetic character of this quarterly information, they must enable investors to form a sufficiently-informed opinion about the activity of the company or its group and the results obtained during the period covered by this quarterly information, as well as the financial and net worth position and other relevant data about the general operations of the company or its group. Comments about the consolidated financial aggregates must be clearly distinguished from those relating to the parent company).				
PDF attached				

C) BASIS OF PRESENTATION AND VALUATION STANDARDS

(The financial and accounting data and information included in this periodic public information statement must apply the principles, valuation standards and accounting criteria envisaged in the current regulations regarding the financial and accounting information to be included in the annual accounts and interim financial statements of the sector to which the company belongs. If, exceptionally, the generally accepted accounting principles and criteria required by the corresponding regulation in force are not applied to the attached data and information, this fact and the reasons behind it must be sufficiently explained, and the impact of their non-application on the net worth, financial position and results of the company or its consolidated group must be disclosed. With a similar scope as above, any changes that may have occurred in the accounting criteria used to prepare the attached information with respect to the latest audited annual financial statements must also be disclosed and discussed. If the same accounting principles, criteria and policies have been applied as in the latest annual financial statements, and if they are in accordance with the accounting regulations in force regarding the entity, indicate this expressly. If, in accordance with the applicable standards, there are adjustments and/or restatements in the previous period due to changes in accounting policies, error corrections or changes in the classification of items, the necessary quantitative and qualitative information must be included in this section in order to understand the adjustments and/or restatements.)

- The consolidated financial information presented in this report for the period January-March 2005 was drafted in accordance with the International Financial Reporting Standards in force at this time.
- The consolidated financial information for the period January-March 2004 was restated in accordance with IFRS for comparison purposes.
- The company has also decided to apply IAS 32 and IAS 39 regarding financial assets to the January-March 2004 information.
- Interpretations of standards are currently in discussion, especially the interpretation being discussed by the IFRIC (International Financial Reporting Interpretation Committee) on the concession business. The final approach adopted for these matters and, specifically, the approach adopted by the IFRIC regarding the open matters may have a significant impact on these results.
- The parent company information was drafted based on Spanish GAAP.

The main changes in the scope of consolidation in the first three months of 2005 were as follows:

- Concessions:

The Chicago Skyway Toll Bridge System was consolidated for the first time.

On 15 October 2004, Cintra Concesiones de Infraestructuras de Transporte, S.A. was awarded the concession for the Chicago Skyway Toll Bridge System. The winning consortium comprises Cintra (55%) and Australian group Macquarie (45%).

The 99-year lease agreement for the Chicago Skyway Toll Bridge System comprises the upkeep and operation of a 12.5-km elevated roadway. The project involves an investment of 1.82 billion dollars.

- Services:

Amey plc acquired an additional 33% of Tube Lines (it now owns 66%), which holds a 30-year administrative concession for the upkeep, maintenance and renovation of three London Underground lines.

That stake is proportionally consolidated since it is considered that there is joint control with another partner in the consortium, US group Bechtel.

D) DIVIDENDS DISTRIBUTED IN THE PERIOD:

(Include the dividends distributed from the start of the business year)

Additional information about distributed dividends (interim, supplementary, etc.) On 29 October 2004, an interim dividend of 0.25 euro per share out of 2004 income was declared. This dividend, which amounted to 35,045,303.00 euro, was paid on 15 November
declared. This dividend, which amounted to 35,045,303.00 euro, was paid on 15 November
2004, excluding own shares at the time of payment.
On 18 March 2005, the Shareholders' Meeting of Grupo Ferrovial, S.A. declared a supplementary dividend of 0.57 euro per share (79,903,990.84 euro) out of 2004 income, excluding own shares at the date of the Shareholders' Meeting. This dividend will be paid on 13 May.
Consequently, a total dividend of 0.82 euro per share will have been distributed out of 2004 income.

•

i

F) ANNEX EXPLAINING SIGNIFICANT EVENTS

- 1. The Board of Directors approved the implementation of a remuneration plan for employees and executives of the companies comprising the corporate group of which Grupo Ferrovial, S.A. is the parent company (with the exception of Cintra Infraestructuras de Transporte, S.A. and its subsidiaries) who have the category of executive or head of department or equivalent, comprising the payment of part of the remuneration by delivering shares of Grupo Ferrovial, S.A., with a maximum of 12,000 euro per person.
- 2. On 29 January, Amey plc (a UK subsidiary of Ferrovial Servicios, S.A. which is wholly owned by Grupo Ferrovial, S.A.) met all the conditions to buy Jarvis's stake in the London Underground project managed via the Tube Lines consortium. As a result, Amey plc effectively became the owner of 66.66% of the Tube Lines consortium.
- 3. On 25 February, the Board of Directors approved the company's 2004 annual corporate governance report
- 4. On 18 March, the Shareholders' Meeting approved, among others, the following resolutions:
- Approval of the financial statements and management report of Grupo Ferrovial, S.A. and its consolidated group.
- Application of 2004 income and the distribution of a dividend of 0.82 euro per share, which, net of the interim dividend already paid, involves the payment of 0.57 euro per share payable on 13 May 2005.
- Approval of the conduct of business by the Board of Directors in 2004.

This information was filed on 31 January, 4 and 28 February, and 18 March.

- Re-appointment of the directors Santiago Bergareche Busquet, Jaime Carvajal Urquijo, Joaquin Ayuso García, Fernando del Pino y Calvo Sotelo and Gabriele Burgio.
- Approval of a system of remuneration for members of the Board of Directors with executive functions and for senior executives, consisting of the payment of part of the variable remuneration in the form of shares of the Company, capped at 12,000 euro per person.
- 5. On 18 March, the Board of Directors re-appointed Joaquín Ayuso Garcia as Chief Executive Officer of Grupo Ferrovial, S.A. and renewed the appointment of Santiago Bergareche Busquet, Jaime Carvajal Urquijo, Fernando del Pino y Calvo-Sotelo and Joaquín Ayuso García as members of the Executive Committee.

PARENT COMPA NY

INSTRUCTIONS FOR COMPLETING THE ADVANCE ON QUARTERLY RESULTS (GENERAL)

- The required monetary amounts must be expressed in thousands of euro, without any decimals and rounded off, unless otherwise stated.
- Negative amounts must be expressed with a minus sign (-) in front of the number.
- Each figure must include next to it the figure for the corresponding period of the previous year, unless otherwise stated.
- The adopted international financial reporting standards (adopted IFRS) are understood as those that the European Commission has adopted in accordance with the procedure established in Regulation (EC) 1606/2002 of the European Parliament and of the Council of 19 July 2002.
- The financial information contained herein must be completed in accordance with the accounting standards and principles of recognition and valuation applicable to the company in the preparation of the financial statements for the annual period to which the periodic public information that is presented refers. Until the years starting from 1 January 2007, companies, except credit institutions, which, in accordance with the Code of Commerce, are obliged to provide consolidated financial statements, and at year-end have only issued fixed-income securities listed in a securities market, and which have decided to continue applying the standards contained in section 3, title III of book 1 of the Code of Commerce and the regulations that implement it provided that they have not applied in a previous year the adopted IFRS, must present consolidated periodic public information of section A) in the heading "Consolidated under Spanish GAAP".

- DEFINITIONS:

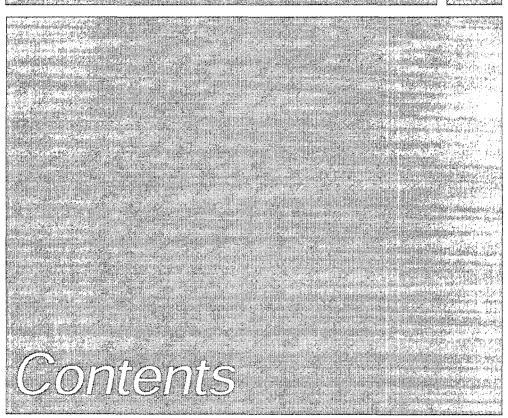

- (1) Net revenues: comprise the amounts from the sale of products and services provided as part of the company's ordinary activities, less discounts and other rebates on sales and value added tax and other taxes directly related to the revenues figure. If the consolidated figures must be presented based on the adopted IFRS, the information in this section must be drafted in accordance with those standards.
- (2) Profit before tax from continuing operations: companies that must present periodic financial information based on the adopted IFRS must include profit before tax from continuing operations in this section.
- (3) Profit for the period from continuing operations: this heading must only be completed by companies that present their financial information based on the adopted IFRS and must reflect the profit after tax from continuing operations.
- (4) Profit for the period: companies that present their financial information based on the adopted IFRS must include in this heading profit for the period from continuing operations minus or plus profit after tax from discontinued operations.

Basis of presentation

√ Adoption of International Financial Reporting Standards (IFRS)

The financial information herein relating to the first quarter of 2005 compared with 2004 was drafted, for both periods, under the new accounting standards adopted by the European Union for drafting the financial statements of listed consolidated groups from 1 January 2005.

IAS 32 and 39 are applied to financial assets in both periods.

On the date of publication of this report, the application of IFRS for concession companies is somewhat undefined since, although general IFRS are applicable to them, a definitive interpretation of the specific regime applicable to concessions has yet to be published.

The draft interpretations (D12, D13 and D14) were published by IFRIC in early 2005 and envisage the possibility of not applying them pending the final wording, provided that the accounting principles established in IFRS are adopted. Grupo Ferrovial has presented its 1Q05 results under IFRS by adopting the following approaches:

- IFRIC's interpretations regarding the two proposed models (intangible asset and financial asset) are not applied.
- The financial expenses following the completion of the construction period are not capitalised.
- Concession assets are depreciated on a straight-line basis.

Highlights

/ Favourable ruling for 407 ETR

In January 2005, the Ontario Superior Court ruled in favour of 407 ETR Concession Company Limited and rejected the appeal filed by Ontario Province. The court declared that 407 ETR was not obliged to ask the Ontario government for permission to raise tolls (chg. request). The Province has appealed the decision.

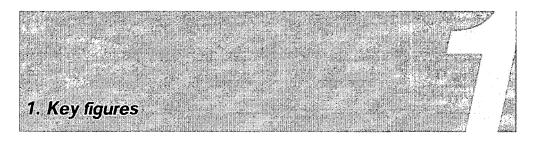

/ Chicago Skyway financing completed

In March 2005, Cintra successfully closed the syndication of the US\$1.19 billion non-recourse senior debt facility for the acquisition of the Chicago Skyway toll road in the US. It was oversubscribed 100%.

/ Acquisition of an additional 33% of Tube Lines

In January 2005, Cintra acquired an additional 33% of Tube Lines for 142 million pounds (206 million euro).

Capital expenditure in 1Q05 alone (562 million euro) was higher than in the entire 2004 (389 million euro).

Net income increased by 11.3% to 77.7 million euro.

EBIT grew by 8.3% to 174.1 million euro.

TOTAL ATTRIBUTABLE NET INCOME	77.7	69.8	11.3

2.2 Revenue

Revenue increased by 5.9%.

The individual business lines performed as follows:

Revenue	1Q05	1Q04 C	hg. (%)
Construction	868.5	794.8	9.3
Real estate	162.4	199.3	-18.5
Infrastructure	161.4	137.6	17.3
Services	647.7	617.4	4.9
Adjustments ^(*)	-31.7	-42.2	
Total	1,808.3	1,706.9	5.9

^(*) This item relates to consolidation adjustments for intercompany sales

The main reasons behind these variations are as follows:

- Construction: greater construction activity abroad, especially due to the construction of the Euroscut Norte toll road in Portugal and the N4/N6 in Ireland, and to Budimex.
- Real estate: negative growth due to the low level of homes delivered in 1Q05.
- Infrastructure: higher revenues due to the contribution of the Chicago Skyway (not operated by Cintra in 1Q04) and the R-4 toll road (not in operation in 1Q04).

The breakdown of sales by region is as follows:

1Q05 % 1Q04 % Chg. %					
Spain	1,107	61%	1,133	66%	-2.3%
Other countries	702	39%	574	34%	22.3%
TOTAL	1,808	100%	1,707	100%	5.9%

International revenue shows a strong growth and accounts for 39% of the total sales.

The foreign countries making the greatest contribution to group revenues were the UK (21%), Poland (6%), Canada (3%), Portugal (3%) and Chile (3%).

2.3 EBIT

The individual business lines performed as follows:

Total	174.1	160.8	8.3
Other	-1.1	-1.1	
Services	46.9	39.7	18.1
Infrastructure	60.7	50.1	21.1
Real estate	30.0	37.7	-20.4
Construction	37.6	34.4	9.3
EBIT	1Q05	1Q041 C	hg. (%)

EBIT increased by 8% due to higher revenue and good performance by recurring activities (around 20% growth). The seasonal nature of house deliveries in the real estate business led to lower growth in 1Q05.

EBIT by division (%):

Consolidated group	100.0%	100.0%
Services	27%	25%
Infrastructure	35%	31%
Real estate	17%	23%
Construction	21%	21%
	1Q05	1Q04

Less cyclical businesses (infrastructure and services) accounted for 62% of EBIT, compared with 56% in 1Q04.

2.4 Financial result

Total	-74.2	-70.6
Rest of group	-4.3	-3.4
Concession companies	-69.8	-67.2
	1Q05	1Q04

The **financial result of the concession companies** increased due to the addition of debt from the Chicago Skyway (consolidated in 2005) and from the Radial-4 road (not in operation in March 2004).

Breakdown of the rest of group financial result:

Total	-4.3	-3.4
Other financial results	-1.4	5.3
Financing result	-2.9	-8.7
	1Q05	1Q04

The financing result decreased on 1Q04 due to a lower net debt balance (46 Omillion euro vs. 772 million euro).

Other financial results include items such as default interest, surety expenses and mortgages. The decrease in 1Q05 is because the company exceptionally collected 7 million euros in default interest in 1Q04 for a single project.

2.5 Taxes

The book expense for taxes totalled 30.8 million euro, implying a tax rate of 30%, slightly less than the 32% in 1Q04.

2.6 Net income

Net income increased by 11.3% to 77.7 million euros.

3.1 Construction

		1Q05	1Q04 Ci	ıg. (%)
Revenu	e	868.5	794.8	9.3
EBIT		37.6	34.4	9.4
Ε	EBIT margin	4.3%	4.3%	
EBT		51.6	47.8	7.9
E	EBT margin	5.9%	6.0%	
Backlog	1	6,803	6,237	9.1
Investm	ent	20	6	

Revenue grew 9.3%, maintaining business profitability.

This increase in revenue was due to greater construction activity abroad, especially the construction of the Euroscut Norte toll road in Portugal and the N4/N6 in Ireland, as well as Budimex.

Excluding the currency effect, revenue would have increased by 7%

The EBT margin narrowed slightly, from 6.0% in 1Q04 to 5.9%, due to lower default interest collections (down 7 million euro).

The backlog increased by 9% and now accounts for over 23 months' activity.

Capital expenditure increased 3.5-fold due to the acquisition of heavy machinery, principally tunnel-boring machines.

Budimex figures

		1Q05	1Q04 CI	ng. (%)
Reve	nue	101.6	40.3	152
EBIT		-1.6	0.0	
	EBIT margin	-1.6%	0.0%	
EBT		0.2	-0.1	
	EBT margin	0.2%	-0.1%	
Backl	log	611	461	32

The Polish zloty appreciated by 16% against the euro between 1Q04 and 1Q05.

Revenue **in local currency terms** increased by 109%. This sharp growth was because in 1Q04 only January and February revenues were booked. Excluding this effect, growth would have been 70% in euro and 40% in local currency.

The backlog amounts to over 600 million euro, i.e. 32% more than in 1Q04.

Construction figures excluding Budimex

		1Q05	1Q04 (Chg. (%)

Backl	og	1,005	1,000	0.4
Land	purchases	127	117	

Revenue in this division declined 18.5% due to the small number of homes delivered in 1Q05. The EBIT margin in 1Q05 (18.5%) is in line with 1Q04 (18.9%)

Pre-sales and the backlog rebounded slightly on 1Q04. The backlog totalled over 1 billion euro, ensuring approximately 18 months' sales.

The breakdown by business line is as follows:

Revenue increased due mainly to the toll road business, which has consolidated the Chicago Skyway since 24 January, and to growth in the car park business as a result of the full consolidation of Eguisa.

Toll roads

	1Q05	1Q04 C	hg. (%)
Revenue	122.1	103.8	17.6
EBIT	52.7	44.6	18.2
EBIT margin	43.2%	43.0%	

407 ETR announced a toll increase effective 7 February 2005. The new tolls are7.2% higher at peak hours (14.95 Canadian cents per kilometre).

Traffic grew 4.6% in 1Q05 despite the toll increase.

In March 2005, Cintra successfully closed the syndication of the US\$1.19 billion non-recourse senior debt facility for the acquisition of the Chicago Skyway in the US. It was oversubscribed 100%.

The senior debt facility is broken down into three tranches:

- Series A: US\$1 billion to finance the acquisition of the Skyway from the City of Chicago;
- Series B: US\$110 million to pay part of the accruing interest on the Series A, B and C loans;

- Series C: US\$80 million to fund improvements on the Skyway between 2005 and 2008, as required under the terms of the concession.

The senior debt has a final maturity of 9 years and pays a margin of 1.25% p.a. from years 1 to 5; 1.50% p.a. in years 6 and 7, and 1.75% p.a. in years 8 and 9.

Other	1.3
Telecommunications	0.0
Services	154.8
Infrastructure	385.4
Real estate (excluding land)	0.8
Construction	20.3
	1Q05

Capex in 1Q05 alone was higher than in full-year 2004 (389 million euro).

The Real Estate division invested 127 million euro in land purchases.

Investment in construction was due to the acquisition of machinery, principally tunnel-boring machines. In Infrastructure, the largest investment was in the payment for the acquisition of the Chicago Skyway (376 million euro, 55% of capital). In Services, the main investment was to acquire an additional 33% of the

London Underground concession company (139 million euro). The remainder (to total 206 million euro) will be paid 2007.

Annex I - Contracts obtained in the quarter

Construction

- Chillán Norte bypass, service roads and Nebuco junction (Chile)
- Construction of a drinking water plant in Jelenia Góra (Poland)
- · Airport terminal building, site development and access roads (Málaga)
- 220 homes, parking spaces, lumber rooms, and site development in the A-11 block in Mairena de Aljarafe (Sevilla)
- Construction of the AS-112 road: Cabaňaquinta-Santullano, section: Moreda-Corigos (Asturias)
- · Tertiary water treatment work at the sewage plant in Rincon de León (Alicante)
- Construction of a cruise ship dock in Getxo (Basque Country)
- 368 homes, parking spaces, lumber rooms, and site development in Camino de la Térmica (Málaga)
- Construction of 1,204 homes in the Almanzora Country Club development in Cuevas de Almanzora (Almería)
- · Consolidation work in Madrid Metro line 3: Argüelles-Moncloa link

Services

- Maintenance of Halton Borough Council's road network in 2005 and 2005 (UK)
- . Control and monitoring of Tube Line's electronic and mechanical systems (UK)
- Maintenance of Cumbria County's road network (7,700 kilometres, 1,700 bridges and 44,000 streetlights) (UK)
- · Facility management contract for Barajas airport industrial zone (Madrid)
- Waste plan in Sector III (Almería)
- Cleaning, gardening, disinfection, pest control and rat control at Fuenlabrada hospital (Madrid)
- · Municipal solid waste collection and street cleaning in Nigran (Pontevedra)
- Street cleaning, municipal solid waste collection and transport, and related services (Basque Country)
- Municipal solid waste collection and cleaning of rubbish skips (Huelva)
- · Waste collection in Bajo Tiétar (Ávila)

Infrastructure

- On-street parking control and tow truck service (Toledo)
- 1-year extension to the parking control service in Lliria (Valencia)
- Extension of the concession for Barajas airport employee car park (Madrid)
- On-street parking control in Aldaia (Valencia)
- Construction and operation of three private car parks (Bilbao)

* 1.- Introduction

- · This information has been prepared to explain the most significant changes identified as result of the application of IFRS to the consolidated financial statements as of December 2004. Please note that:
- This information is preliminary:
- Based on the standards known at this time.
- · Those standards may be modified before the preparation of the official 2005 financial statements.
- Certain matters of interpretation are currently open, most notably the interpretation currently being discussed by IFRIC (International Financial Reporting Interpretations Committee) regarding the concession business. The final position adopted by that committee may have a significant impact on figures presented here.
- reviewing it, the final auditors' report will be issued on the official financial statements for - This information is unaudited. Although the company's auditors have assisted in

2.- Methods adopted (I)

IAS 32 and 39 (Financial Instruments): applied from 1 January

Concession business:

- IFRIC draft interpretation (D12. D13 and D14) not applied.
- The impact of not capitalising financial expenses on toll roads after the end of construction is considered.
- Deprecíation on a straight-line basis. Pending final interpretation.
- Share-based remuneration systems: IFRS 2 applied since 1 January 2004.

- Property, plant and equipment and Intangible assets: Cost.
- Jointly-controlled companies and joint ventures: proportionate consolidation.
- Business combinations: those prior to 1 January 2004 are not restated.
- Accumulated translation differences: eliminated against reserves

Spanish GAAP

- Reversion fund amortised on the basis of expected revenues.
- Other assets depreciated on a straight-line basis or using other technical criteria.

IFRS

- Final treatment will depend on:
- Classification under IFRIC interpretation of the type of asset to be recognised (tangible, intangible or financial).
- Depreciation method established in interpretation.
- We have assumed the most conservative assumption (straight-line).

4.-Impact on income statement - 4:1 Change in net income. Non-recurring effects

Earnings January - March 2005 - Impact of International Financial Reporting Standards 29

5.- Main impacts on net equity

CAPITALISATION OF FINANCIAL INCOME. TOLL ROADS

ASSETS - 910.2 -38.9 - 949.1	LIABILITIES	-282.9	-352.4	<u> </u>
DEFERRED EXPENSES EQUITY AFFILIATES TOTAL ASSETS	RESERVES	MINORITY INTEREST DEFERRED TAXES	TOTAL LIABILITIES	

Spanish GAAP

- Financial expenses can be capitalised during construction.
- During operation, financial expenses can be capitalised if recognised as expense on the basis of expected revenues

IFRS

- Financial expenses can be capitalised during construction.
- May not be capitalised after entry into service

5.-Main impacts on net equity DEPRECIATION

ASSETS -252.8	87.7 - 165.1	LIABILITIES -62.2	
CONCESSION ASSETS	DEFERRED TAXES TOTAL ASSETS	RESERVES MINORITY INTEREST	TOTAL LIABILITIES

Spanish GAAP

- Reversion fund amortised on the basis of expected revenues.
- Other assets depreciated on a straight-line basis or using other technical criteria.

IFRS

- Final treatment will depend on:
- Classification under IFRIC interpretation of the type of asset to be recognised (tangible, intangible or financial).
- Depreciation method established in interpretation.
- We have assumed the most conservative assumption (straight-line).

- Since October 2003, IFRIC has been analysing the issuance of an interpretation in connection with the concession business
- The interpretation will be applicable to all types of public concessions (including services)
- On 3 March 2005, it issued three draft interpretations that are currently open to public comment (until 31 May).
- After considering feedback, the IFRIC and IASB must approve those interpretations.
- Those interpretations must then be ratified by the European Union.
- According to the current wording, they will be applicable to years commencing on or after 1 January 2006.

The current draft poses two alternative models for accounting:

- Intangible asset model: For regulated concessions in which the concession operator charges the user.
- Financial asset model: For regulated concessions in which the concession operator charges the Administration.

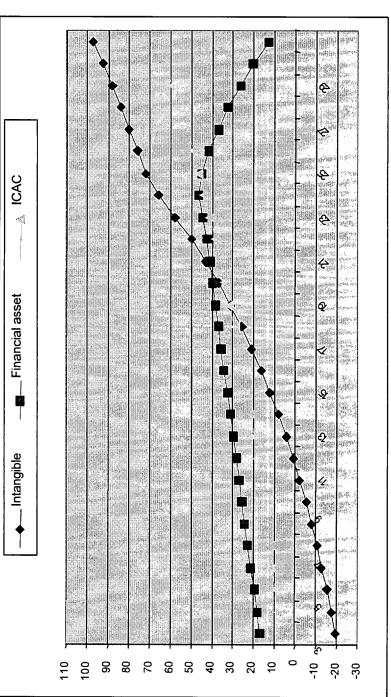

The demarcation between the two models may be changed in the final interpretation.

The two models have very different accounting impacts

9.- Conclusions

- Accounting change: No impact on cash flow from operations.
- Does not affect individual company accounts: no effect on tax flows.
- Uncertainty in the concession business. Possible changes in 2006.
- Will not affect dividend policy.
- value which may negatively impact the income statement in the early New concessions and refinancing of existing concessions: source of years.
